

## Why lose out if the worst happens?

If your vehicle is written off as a result of being stolen or involved in an accident, your motor insurance company will only pay you the current market value of the vehicle.

This can often be thousands of pounds less than you originally paid for the vehicle, or still owe on finance.

Now you are left with a new deposit to find for an equivalent vehicle, or a large monthly bill for the outstanding finance on a vehicle you are no longer able to drive.

Guaranteed Asset Protection (GAP) can help you in bridging this gap.

Vehicle Protection Redefined

**GUARANTEED ASSET PROTECTION (GAP)**

# We can help you bridge the GAP

## How Return to Invoice GAP Works

## The Auto Group Guaranteed Asset Protection (GAP)

**EXAMPLE;** If you paid £20,000 for a vehicle and two years later it was stolen resulting in your motor insurer declaring it a total loss, and paying you the current market value of £14,000, your Guaranteed Asset Protection policy will bridge the gap between the current

market value and the original market value of your vehicle, and pay you £6,000. The £6,000 can go towards paying off any outstanding finance and place you in a similar situation to when you originally purchased the vehicle.

If any settlement on your dealer arranged car finance is greater than the amount covered under your RTI policy, then Finance GAP will settle the higher figure. A GAP pay-out gives you the option of buying an equivalent vehicle to replace your pride and joy.
